Title: METHOD AND DEVICE FOR) Attorney Docket: PCI-789
MINIMIZING OIL)
CONSUMPTION IN A GAS)
TURBINE ENGINE)

Honourable Assistant Commissioner of Patents
Washington, DC 20231

INTERVIEW SUMMARY

Sir:

Following a telephone interview at 2 pm, May 25, 2004,
between Examiner Edgar and Applicant's agent Todd D. Bailey
(47,274), the following summary is provided:

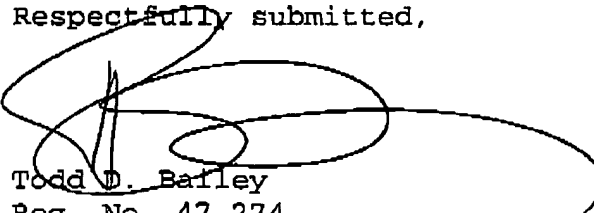

Summary

All claims of record and all rejections made in the
latest Official Action (mailed 02/04/2004) were discussed in
view of the prior art references Tran et al. (US Patent No.
6,142,729) and Smith (US Patent No. 4,531,358).

The parties agreed that claim 13 is patentable over
the prior art. The Examiner maintained the position taken
in the Official Action with respect to all other claims.

25 May 2004

Respectfully submitted,

Todd D. Bailey
